

Video Title: IT & Technology

Video Description: Cutting edge technology, tools and applications utilized by Merck's collaborative Information Technology sector and the opportunities available to them.

Fitzgerald Algoo, Director for IT Infrastructure

I am Fitzgerald Algoo, I work for Merck in Whitehouse Station, New Jersey, and I am the director IT Infrastructure engineering.

Fitzgerald

:11

IT enables Merck to compete in the marketplace.

Fitzgerald

:15

We are here to support the businesses of Merck which involves building IT systems to support the various business line areas of Merck.

Fitzgerald

:25

We have the best collaboration tools, we have the best enterprise applications and some of the best telecommuting and mobile communications.

Fitzgerald

:32

When you look at a percentage of my day I probably spend about 50-60% of my time on my computer.

Fitzgerald

:39

We leverage a lot of computer technologies but I think its important for us to get out and collaborate and meet other people to be effective in what we do.

Fitzgerald

:46

I felt that to develop my professional IT experience, Merck provided great opportunity for me. :59
